(54) Title: TWO-PART SECURITY STICKER AND DOCUMENT SYSTEM THEREFOR

(57) Abstract: Security sticker and document retrieval system, wherein the sticker comprises one or more security features on a backing layer (16) having opposite first and second major sides, said first major side having a transparent or translucent adhesive layer (22) applied at least to a first part (5) thereof and a liner (18) on aside of the adhesive layer (22) remote from said backing layer (16). The first major side has in the first part of said security sticker a first area containing one or more indicia describing first information (3) to be protected against forgery and/or tampering in a first mode of use and said second major side has in a second part of said security sticker a second area located opposite to a third area on said first major side that does not contain information to be displayed and protected in said first mode of use. The second area (14) comprises a section being adapted to receive second information (13), said second information (13) being related to all or a part of said first information.
