CHRISTIAN OBLINGER
DESIGN FOR A LAMP CHIMNEY CLEANER.

PATENTED APR 26 1870

FIG. 1.

FIG. 2.

Christian Oblingor
by his Atto
Hanson and Son

CHRISTIAN OBLINGER, OF CAMDEN, NEW JERSEY.

Design No. 4,001, dated April 26, 1870.

DESIGN FOR A LAMP-CHIMNEY CLEANER.

The Schedule referred to in these Letters Patent and making part of the same.

I, CHRISTIAN OBLINGER, of Camden, county of Camden, State of New Jersey, have invented or produced a new and original Design for a Lamp-Chimney Cleaner, of which the following is a specification.

In the accompanying drawings—
Figures 1 and 2 are perspective views of lamp-chimney cleaners made in accordance with my design.

The cleaner consists of four or other suitable number of radial arms or wings A, curved on their outer edges x, to conform to the shape of the interior of a lamp-chimney.

In fig. 1 these arms or wings are attached to or form part of a central tube, y, by means of which they are connected to the handle B.

The tube, however, which forms no part of my design, may be dispensed with, as the arms or wings can be attached to the handle, as shown in fig. 2, or in any other suitable manner.

Claim.

A lamp-chimney cleaner, consisting of radial arms or wings A, curved to conform to the shape of the chimney, and attached to a handle B, all substantially as shown and described.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

CHRISTIAN OBLINGER.

Witnesses:
FRANK B. RICHARDS,
LOUIS BOSWELL.
