(54) Title: DEDICATED WIRELESS DEVICE BUSINESS METHOD

(57) Abstract: A business model that is dedicated to supporting a wireless messaging device. The model offers unlimited services on a dependent device, including mixed limited/unlimited usage models, pre-and post-pay models, and models not found in a conventional monthly recurring charge system. The model further includes components that address service selection, suspension, resumption, service add-ons, account limitations and restrictions, detect device compatibility with support services, account analysis, charging cycles, billing methods, third-party add-ons and interfacing, and troubleshooting support.

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	EP 1 089 519 (Black et al.) 04 April 2001 (04.04.2001). see entire document	1-66

☐ Further documents are listed in the continuation of Box C.

☐ See patent family annex.

* Special categories of cited documents:

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
