UK Patent Application (19)GB (11)2510083

23.07.2014

(21) Application No: 1408437.0

(22) Date of Filing: 17.12.2012

Date Lodged: 13.05.2014

(30) Priority Data:

(31) 61/577818 (32) 20.12.2011 (33) **US**

(86) International Application Data: PCT/US2012/070103 En 17.12.2012

(87) International Publication Data: WO2013/096201 En 27.06.2013

(71) Applicant(s):

Shell International Research Maatschhappij B.V. (Incorporated in the Netherlands) Carel van Bylandtlaan 30, NL-2596 HR, The Hague, Netherlands

(72) Inventor(s): **Ulfert Cornelis Klomp**

(74) Agent and/or Address for Service: **Shell International Limited** PO Box 662, LONDON, SE1 7NE, United Kingdom (51) INT CL:

C10L 3/10 (2006.01)

(58) Field of Search: INT CL C10L

Other: EPO-Internal, WPI Data

- (54) Title of the Invention: Method for inhibiting the plugging of conduits by gas hydrates Abstract Title: Method for inhibiting the plugging of conduits by gas hydrates
- (57) A method for inhibiting the plugging of a conduit containing a flowable mixture comprising at least an amount of hydrocarbons capable of forming hydrates in the presence of water and an amount of water, which method comprises adding to the mixture an amount of a functionalized dendrimer effective to inhibit formation and/or accumulation of hydrates in the mixture at conduit temperatures and pressures; and flowing the mixture containing the functionalized dendrimer and any hydrates through the conduit wherein the functionalized dendrimer comprises two or more functional end groups selected from the group consisting of non-cyclic tertiary amine functional end groups, quaternary ammonium functional end groups, polyalkylene glycol functional end groups, quaternary ammonium zwitterionic end groups and phosphate or sulfate end groups.
