PCT/US 06/27137

A. CLASSIFICATION OF SUBJECT MATTER

IPC(8) - G10L 15/18 (2008.04)

USPC - 704/257

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

USPC - 704/257

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
USPC - 704/246, 257; 455/563 -- text search, see search terms below

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

PubWEST(PGPB,USPT,USOC,EPAB,JPAB); Google Scholar

Search Terms Used: emergency, terrorist, terrorism, disaster, Interopera, inter, opera, radio, communication, sound, card, voice, speech, identif, channel, solar, power, cell, replenish, recharg, lead, positive, negative, array, period, duration, NIMH, volt, day, week

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
