(54) **Title:** VEHICLE EMERGENCY EGRESS ASSEMBLY

Fig. 1

(57) **Abstract:** A vehicle emergency egress system includes a transparent armor assembly disposable in a vehicle window frame, the transparent armor assembly including at least one transparent armor pane, and interiorly accessible release means, the release means being selectively operable by a vehicle occupant for effecting release of at least the one of the transparent armor panes, such release permitting shifting a respective one of the at least one transparent armor panes from the transparent armor assembly to define an egress portal. A method of forming a vehicle emergency egress system is further included.

* Special categories of cited documents

"A" document defining the general state of the art which is not considered to be of particular relevance

"E¹" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

O document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"P" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance, the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance, the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
