

UNITED STATES PATENT OFFICE.

FRANZ PAWLEWSKI AND JOHN SCHULZ, OF MILWAUKEE, WISCONSIN.

IMPROVEMENT IN MEDICAL COMPOUNDS OR EYE-WASHES.

Specification forming part of Letters Patent No. **145,749**, dated December 23, 1873; application filed June 20, 1873.

To all whom it may concern:

Be it known that we, FRANZ PAWLEWSKI and JOHN SCHULZ, of Milwaukee, in the county of Milwaukee, in the State of Wisconsin, have invented certain Improvements in Eye-Water, of which the following is a specification:

Our improvement consists in an eye-water made from certain articles compounded and put up for use.

To prepare the composition, take one and five-sixteenths grain chloride of sodium; one and five-sixteenths grain of sulphate of zinc; one and one-twelfth grain oxide of zinc; one-

twelfth grain of carbonate of zinc; two and five-eighths grains of fennel-water, and two and five-eighths grains aqua chelidonium majus; and mix well together, and bottle for use.

We claim as our invention—

An eye - water compounded from the ingredients above named, and in about the proportions as described.

FRANZ PAWLEWSKI.
JOHN SCHULZ.
