MULTICOLORED LED VEHICLE INTERIOR LIGHT

A multicolored LED vehicle interior light is described. In various implementations, a switch is used to select one of a plurality of LED lights, in which one light is of a color, such as red, which is suitable for preserving night vision.
INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER

IPC: B64D 47/02 (2006.01); F21V 23/04 (2006.01); F21S 10/02 (2006.01); F21V 5/04 (2006.01)

USPC: 362/471,231,244,251,394
According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
U.S.: 362/471,231,244,251,394

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
None

Electronic database consulted during the international search (name of database and, where practical, search terms used)
Please See Continuation Sheet

X Further documents are listed in the continuation of Box C. See patent family annex.

* Special categories of cited documents:
**A** document defining the general state of the art which is not considered to be of particular relevance
**E** earlier application or patent published on or after the international filing date
**L** document which may throw doubts on priority claims or which is cited to establish the publication date of another citation or other special reason (as specified)
**O** document referring to an oral disclosure, use, exhibition or other means
**P** document published prior to the international filing date but later than the priority date claimed
