# UNITED STATES PATENT OFFICE.

CHARLES F. FILOR, OF TRENTON, NEW JERSEY.

## DESIGN FOR A COMB.

SPECIFICATION forming part of Design No. 34,923, dated August 13, 1901.

Application filed June 19, 1901. Serial No. 65,206. Term of patent 7 years.

*To all whom it may concern:*

Be it known that I, CHARLES F. FILOR, a citizen of the United States, residing at Trenton, in the county of Mercer, State of New Jersey, have invented and produced a new and original Design for a Comb, of which the following is a specification, reference being had to the accompanying drawing, forming part thereof, and of which the figure shows a side elevation of a folding comb exhibiting my design in extended position for use.

The leading feature of my design consists of the ornamental beaded form of the back and handle.

A series of substantially-semicircular beads *b* are formed along the back of the handle *a*

and a similar series *b'* along the back of the comb portion *c*. Each one of these beads is pierced at its center by a hole *e*, while the ends of the handle are rounded, as at *d*.

Having described my invention, what I claim as new, and desire to secure by Letters Patent, is—

The design for a comb, as herein shown and described.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

CHARLES F. FILOR. [L. S.]
