UNITED STATES PATENT OFFICE.

JOSEPH K. BROWN, OF CANTON, OHIO, ASSIGNOR TO THE CANTON GLASS COMPANY, OF SAME PLACE.

DESIGN FOR A LAMP-BODY.

SPECIFICATION forming part of Design No. 17,979, dated December 27, 1887.

Application filed November 4, 1887. Serial No. 254,338. Term of patent 14 years.

To all whom it may concern:

Be it known that I, JOSEPH K. BROWN, a citizen of the United States, and a resident of Canton, county of Stark, State of Ohio, have invented a new and useful Improvement in Designs for Lamps, of which the following is a full, clear, and exact description, reference being had to the accompanying drawing, making part of this specification.

This invention relates to an original design for lamps; and it consists in the shape, configuration, and ornamentation of the lamp-bowl, as hereinafter described, and set forth in the claim.

The figure is a view of the lamp-bowl representing my design.

This design consists of a spherical bowl having a suitable pedestal and provided with a collar at the top and with the standard, as shown. The surface or body of the bowl is provided with smooth portions representing the waters of the world substantially as they are delineated in accordance with the official surveys, and with raised portions representing the shapes of the different bodies of land. In the drawing the smooth portions representing the water are denoted by the letter B, and the raised portions denoting land by the letter C. The different divisions of land may be further distinguished from one another by contrasting colors.

What I claim as new, and desire to secure by Letters Patent, is—

The design herein shown and described for a lamp-body, consisting of the spherical bowl provided with smooth portions to indicate the water on the surface of the earth, and with raised portions to indicate the several divisions of land on the surface of the earth, the said bowl having a collar at one of its poles and a standard at the opposite pole, substantially as set forth.

In testimony whereof I have hereunto set my hand this 2d day of November, A. D. 1887.

JOSEPH K. BROWN.
