DESIGN.
No. 35,500.
M. SEIPS.
BRACKET FOR CHAFING DISH LAMP SUPPORTS.
(Application filed Oct. 14, 1901.)
UNITED STATES PATENT OFFICE.

MICHAEL SEIPS, OF MERIDEN, CONNECTICUT, ASSIGNEE TO MANNING, BOWMAN & COMPANY, OF MERIDEN, CONNECTICUT, A CORPORATION OF CONNECTICUT.

DESIGN FOR A BRACKET FOR CHAFING-DISH LAMP-SUPPORTS.

SPECIFICATION forming part of Design No. 35,500, dated December 31, 1901.

Application filed October 14, 1901. Serial No. 72,688. Term of patent 7 years.

To all whom it may concern:

Be it known that I, MICHAEL SEIPS, a citizen of the United States, residing at Meriden, New Haven county, Connecticut, have invented a new and original Design for a Bracket for Chafing-Dish Lamp-Supports, of which the following is a full, clear, and exact description.

My invention relates to a new and original design for a bracket for use with a lamp-shelf and chafing-dish tripod.

In the drawing, C is the main arm or stem of the bracket, having therefrom two projections D and E, curved upward and downward, respectively, in the form of graceful scrolls. The lower portion of the stem of the bracket curves outwardly slightly, as shown, and in a direction opposite to the curve midway in the length of the stem.

The leading feature of my design is the short stem C, curved downward and outward slightly and having branched therefrom the upwardly and downwardly curving scrolls D and E.

What I claim is—

The design for a bracket for a chafing-dish lamp-support, substantially as shown and described.

Signed at Meriden, Connecticut, this 11th day of October, 1901.

MICHAEL SEIPS.
