(57) **CLAIM**

The ornamental design for a display screen with a graphic user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

The sole FIGURE is a front view of a display screen with a graphic user interface showing the new design.

The outermost broken line represents the display screen or portion thereof and forms no part of the claimed design. Broken lines shown within the display screen are graphical elements of the user interface that do form part of the claimed design.
