UNITED STATES PATENT OFFICE.

FRANK GOETZ, OF MANCHESTER, CONNECTICUT.

DESIGN FOR A BOX OR CARTON.

SPECIFICATION forming part of Design No. 36,016, dated August 19, 1902.

Application filed May 27, 1902. Serial No. 108,249. Term of patent 7 years.

To all whom it may concern:

Be it known that I, FRANK GOETZ, a citizen of the United States, residing at Manchester, in the county of Hartford and State of Connecticut, have invented and produced a new, original, and ornamental Design for Boxes or Cartons, of which the following is a specification.

My new design is for the surface ornamentation of a carton or box.

The drawing accompanying and forming part of this specification represents in perspective a box or carton showing my new and ornamental design.

As shown in the drawing, the leading or material feature of my design consists of strips of ornamentation simulating the grain of wood and transverse strips of ornamentation simulating the grain of wood, ornamentations simulating metal corner-branches, and an ornamentation simulating a hasp, a staple projecting therethrough and a pin covering a part of the hasp. These ornamentations are arranged, as shown, to give the appearance of a crate. The strips of ornamentation simulating the grain of wood are disposed at a distance apart, and between them are shown configurations simulating biscuits located within the crate, the appearance of the entire design being a crate of biscuits, the crate having its base oblong and its height and breadth about equal.

Having described my invention, what I claim as new, and desire to secure by Letters Patent, is—

The ornamental design for a carton or box as herein shown and described.

FRANK GOETZ.
