UNITED STATES PATENT OFFICE.

LOUIS D. FRENOT, OF NEWARK, NEW JERSEY, ASSIGNOR TO THE FIRM OF
REEVES AND BROWNE, OF NEWARK, NEW JERSEY.

DESIGN FOR AN ORNAMENTAL HEAD FOR BROOCHES, SCARF-PINS, OR SIMILAR ARTICLES.

SPECIFICATION forming part of Design No. 35,922, dated May 27, 1902.

Application filed February 8, 1902. Serial No. 93,254. Term of patent 7 years.

To all whom it may concern:

Be it known that I, LOUIS D. FRENOT, a citizen of the United States, residing at Newark, in the county of Essex and State of New Jersey, have invented and produced a new and original Design for an Ornamental Head for Brooches, Scarf-Pins, and Similar Articles; and I do hereby declare the following to be a full, clear, and exact description of the invention, such as will enable others skilled in the art to which it appertains to make and use the same, reference being had to the accompanying drawings, and to letters of reference marked thereon, which form a part of this specification:

Figure 1 is a front elevation, and Fig. 2 is a side elevation, of an ornamental head for pins, brooches, &c., of my new design.

As shown in the drawings, the leading or material feature of my design consists in an ornamental head for brooches, scarf-pins, and similar articles, having at its front the shape of the forward portion of a carnivorous animal's head, with mouth open to expose the

teeth, and long hair at the cheek spread outwardly and displayed as a broad base, the back of the ornamental head being plane.

In said drawings, *a* indicates an ornamental head of my new design, having at its front the configuration of the forward portion of the head of a carnivorous animal, with open mouth *b*, displaying teeth *cc*. At the cheeks is long hair *d*, combed outward and displayed as a base, and beyond this is a background of farther-diverging ray-like members *e*. The back of the ornamental head is plane, as at *f*.

Having thus described the invention, what I claim as new is—

The design for an ornamental head for brooches, scarf-pins and similar articles as herein shown and described.

In testimony that I claim the foregoing I have hereunto set my hand this 7th day of February, 1902.

LOUIS D. FRENOT.
