(54) Title: A SYSTEM AND METHOD FOR IDENTIFYING AND PROVIDING USER-SPECIFIC PSYCHOACTIVE CON-
TENT

FIG. 1

(57) Abstract: A new approach is proposed that contemplates systems and methods to identify, select, and present psychoactive content to a user in order to achieve a desired psychotherapeutic effect or purpose on the user. More specifically, content items in a content library are tagged and categorized under various psychoactive properties. In addition, image-feeling associations are assessed on a per user basis to determine what types of content items induce what types of feelings/reactions from the specific user. A content comprising one or more content items can then be presented to the user based on its ability to induce a desired shift in the emotional state of the user.

A. CLASSIFICATION OF SUBJECT MATTER**G06Q 50/00(2006.01)i**

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06Q 50/00; G06F 3/00; G11B 27/034; G11B 27/10

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) & Keywords: content, psychoactive, feeling, assessment.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
