(54) Sprinkler with adjustable water spray jets

(57) Sprinkler provided with adjustable water spray jets, particularly adapted for use in lawn and garden watering applications.

It comprises a framework (10) for it to rest on the ground, said framework supporting a pipe (11) provided with nozzles (12) issuing water spray jets, and a turbine-

like driving assembly (13). Between the turbine-like driving assembly (13) and the water issuing pipe (11) there is provided a flow-rate adjustment arrangement (22-26).

The sprinkler is therefore a fixed one, featuring a simple and rational construction, while however allowing for an even and progressive watering of the ground.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 00 10 1308

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
