CLAIM

The ornamental design for a mirror reflex camera, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a mirror reflex camera, showing our new design;

FIG. 2 is a right side elevational view of the mirror reflex camera;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a bottom view thereof;

FIG. 7 is a right front perspective view thereof;

FIG. 8 is a left rear perspective view thereof; and

FIG. 9 is an enlarged fragmentary elevational view of a portion of the surface ornamentation.

The surface ornamentation on the major portion of the body of the camera and on the adjusting rings is a multiplicity of small pyramids arranged in rows and projecting from the surface, as is clearly shown in the enlarged portion of FIG. 9. The details of the ornamentation have been omitted elsewhere for ease of illustration.
