(54) Title: INTERACTIVE GAME

(57) Abstract: A game playable over the Internet combines scoring through a scratch-card image displayed on a computer display together with scoring based on a sporting event which is taking place at the same time. The player selects a team from competitors in the sporting event. The actual scores achieved by the team members, for example in a round of golf, are then combined with the scores achieved by the player "scratching-off" panels displayed on his computer screen.
