PURCHASABLE CONTENT DISTRIBUTION WITH SHOPPING CART HAVING SEGREGATED DIGITAL DOWNLOAD CONTENT AND PHYSICAL STORAGE MEDIA

A transaction for purchasable content is facilitated over an electronic network (10), the purchasable content including downloadable digital data and physical storage media containing at least one of digital data and analog data. A first presence (30) is maintained on the electronic network (10) to which a consumer (20) may connect. A page is transmitted from the first presence (30) to the consumer (20) over the electronic network (10), the page including information concerning the purchasable content. A command is received from the consumer (20) over the electronic network (10) indicating that the consumer (20) wishes the transaction for the purchasable content. The transaction for the physical storage media, but not the downloadable digital data, is then completed over the electronic network (10) by way of the first presence (30).
