(54) **Title:** A VEHICLE WITH AN ELECTRIC PRIME MOVER

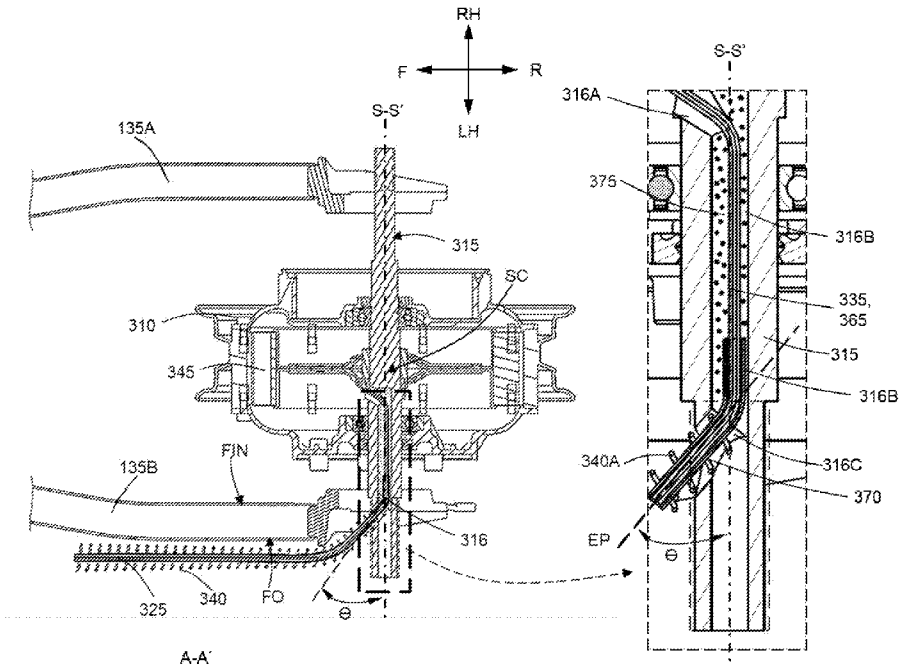

Fig. 2 (b)

(57) **Abstract:** The present subject matter provides a vehicle (100) with an electric prime mover (120). A structural member (135) is capable of supporting the electric prime mover (120) rotatably. The electric prime mover (120) includes a shaft (315) fixedly mounted to the structural member (135) and is disposed substantially in a lateral direction (RH-LH) of the vehicle (100). A cable assembly (325) extends outward from said stationary member (305) through a cable path (316) defined by the shaft (315). The cable path (316) includes at least a portion provided with a caulking member (375) capable of securely holding the cable assembly (325) thereat whereby the caulking member (375) provides the cable path (316) with a tight seal.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"D" document cited by the applicant in the international application

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
