[57] CLAIM

The ornamental design for a rim for a food receptacle.

DESCRIPTION

FIG. 1 is a perspective view of a rim for a food receptacle showing our new design, with the food receptacle shown in phantom;

FIG. 2 is a top plan view of a rim for a food receptacle showing our new design with the food receptacle shown in phantom;

FIG. 3 is a left end elevational view of a rim for a food receptacle with the food receptacle shown in phantom, the right end elevational view being a mirror image thereof; and,

FIG. 4 is a front side elevational view of a rim for a food receptacle with the food receptacle shown in phantom, the rear elevational view being a mirror image thereof. The broken line showing of a tray bottom is for illustrative purposes only and forms no part of the claimed design.

The bottom plan view is plain and unornamented.
