Title: CELLULAR PHONE SYSTEM WITH DATA REPLY MESSAGING

Abstract: A system and method which allows a cellular phone user (10) to communicate with a caller with predetermined data messages (1, 2, 3, 4...). The method comprises the steps of establishing a wireless communication link between a wireless terminal user (10) and a second party and selectively activating at the wireless terminal (19) the transmission of at least one data message for receipt by the second party, wherein the data message is responsive to a message transmitted by the second party. The data message may be selected by the wireless terminal user from a plurality of data messages (1, 2, 3, 4...), such as a personalized data message previously stored by the wireless terminal user. According to other embodiments of the invention, the wireless communication link may be initiated by either the second party or by the wireless terminal user.

### INTERNATIONAL SEARCH REPORT

**A. CLASSIFICATION OF SUBJECT MATTER**

IPC(6) : H04M 1/68, 11/10  
US CL. : 455/412, 413, 517; 379/67.1, 68, 80, 88.01  
According to International Patent Classification (IPC) or to both national classification and IPC.

**B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols)  
U.S.: 455/412, 413, 517; 379/67.1, 68, 80, 88.01

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched  
NONE

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)  
MESSAGES1, STORED, RESPONSE, WIRELESS OR MOBILE

**C. DOCUMENTS CONSIDERED TO BE RELEVANT**

□ Further documents are listed in the continuation of Box C.  
□ See patent family annex.

* Special categories of cited documents:  
  *A* document defining the general state of the art which is not considered to be of particular relevance  
  *E* earlier application or patent published on or after the international filing date  
  *L* document which may throw doubt on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)  
  *O* document referring to an oral disclosure, use, exhibition or other means  
  *P* document published prior to the international filing date but later than the priority date claimed  
  *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention  
  *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone  
  *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art  
  *Z* document member of the same patent family
