CLAIM
The ornamental design for an light source of light emitting diode, as shown and described.

DESCRIPTION
FIG. 1 is a perspective view of one embodiment of an light source of light emitting diode showing our design;
FIG. 2 is a top plan view of the light source of light emitting diode shown in FIG. 1;
FIG. 3 is a bottom plan view of the light source of light emitting diode shown in FIG. 1;
FIG. 4 is a front elevation view of the light source of light emitting diode shown in FIG. 1, with the back and both side elevation views being substantially similar;
FIG. 5 is a top plan view of one component of the light source of light emitting diode shown in FIG. 1;
FIG. 6 is a bottom plan view of one component of the light source of light emitting diode shown in FIG. 1;
FIG. 7 is a perspective view of another embodiment of an light source of light emitting diode showing our design;
FIG. 8 is a top plan view of the light source of light emitting diode shown in FIG. 7;
FIG. 9 is a bottom plan view of the light source of light emitting diode shown in FIG. 7 and,
FIG. 10 is a front elevation view of the light source of light emitting diode shown in FIG. 7, with the back and both side elevation views being substantially similar.
The broken lines in FIGS. 1-10 are for illustrative purposes only and form no part of the claimed design.
