CLAIM

The ornamental design for a lip product container, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawings(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a perspective view of a lip product container in an open configuration showing my design;

FIG. 2 is a front elevation view thereof;

FIG. 3 is a rear elevation view thereof;

FIG. 4 is a left side elevation view thereof;

FIG. 5 is a right side elevation view thereof;

FIG. 6 is a top plan view thereof; and,

FIG. 7 is a bottom plan view thereof.

A characteristic feature of the design resides in the color of the surface of the lip product container being black and the color of the contrasting pattern visible on the outer surface of the lip product container and corresponding lip product being pink. The broken lines in the drawings showing the lip product container illustrate the portions of the lip product container that form no part of the claimed design.
