(54) Title: BEHAVIOUR MODIFICATION SYSTEM WITH PERSONAL PORTAL

(57) Abstract: A behaviour modification program, compliance monitoring and feedback system includes a server-based relational database and one or more microprocessors electronically coupled to the server. The program has a series of milestones for an individual to achieve lifestyle changes necessary to maintain his or her health or recover from ailments or medical procedures. The program enters health-related data then compliance data is generated indicative of the individual's progress. The personal portal provides customizable access to Internet sites and other information. An electronic calendar (90A), journal (94A), and meeting room are all integrated into the behavior modification program.

INTERNATIONAL SEARCH REPORT

International application No.
PCT/US00/15520**Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)**

This international report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. Claims Nos.: second set of 46-55 and 56-65
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

The claims were numbered 1-55, and then 46-52, 52-65. Consequently, there are multiple claims numbered 46-55. A search report is provided for the first set of claims 1-55. The second set of claims 46-65 were not searched since the claim dependency is uncertain due to the discrepancy in numbering.
3. Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:

4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- The additional search fees were accompanied by the applicant's protest.
 No protest accompanied the payment of additional search fees.
