Abstract: A formulation containing SAE-CD and corticosteroid is provided. The formulation is adapted for nasal administration to a subject with any known nasal administration device. The formulation can be included in a kit. The formulation is administered as an aqueous solution, however, it can be stored as a dry powder, ready-to-use solution, or concentrated composition. The formulation is employed in an improved system for administering corticosteroid intranasally. SAE-CD present in the formulation significantly enhances the chemical stability of budesonide. A method of administering the formulation is provided.
INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER
   IPC: A61K 9/00(2006.01), 9/12(2006.01), 9/72(2006.01), 31/56(2006.01)
   USPC: 424/45, 434; 514/58, 59
   According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED
   Minimum documentation searched (classification system followed by classification symbols)
   U.S.: 424/45, 434; 514/58, 59
   Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
   Electronic database consulted during the international search (name of database and, where practicable, search terms used)
   WEST, NPL, PALM

C. DOCUMENTS CONSIDERED TO BE RELEVANT
   Category *  Citation of document, with indication, where appropriate, of the relevant passages  Relevant to claim No.

Further documents are listed in the continuation of Box C. See patent family annex.

Date of the actual completion of the international search 29 July 2008 (29.07.2008)
Date of mailing of the international search report 04 SEP 2008
