Abstract: A flexible billing system captures communication events on a more granular level than current communication systems. The captured communication events can then be aggregated into different event categories and combined with other event parameters to provide a wider variety of billing options to mobile network operators. The flexible billing system can be integrated with existing billing and provisioning systems. Thus, subscribers can be billed for enabled data access services and services are only enabled for billable entities.

INTERNATIONAL SEARCH REPORT

INTERNATIONAL APPLICATION No.
PCT/US05/37702

A. CLASSIFICATION OF SUBJECT MATTER
IPC: H04M 11/00

USPC: 455/408
According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
U.S.: 455/408; 709/201

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

<table>
<thead>
<tr>
<th>Category</th>
<th>Citation of document, with indication, where appropriate, of the relevant passages</th>
<th>Relevant to claim No.</th>
</tr>
</thead>
<tbody>
<tr>
<td>X.P</td>
<td>US 2005/0138111 A1 (ATON et al) 23 June 2005 (23.06.2005), abstract, paragraphs 9, 44, 45, 61, 65, and 103</td>
<td>1-33</td>
</tr>
</tbody>
</table>

Further documents are listed in the continuation of Box C. See patent family annex.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Date of the actual completion of the international search: 24 October 2007 (24.10.2007)
