The ornamental design for a separable wheel having a removable front face with retractable anti-skid devices, as shown and described.

DESCRIPTION

FIG. 1 is an exploded perspective view, looking from the front, of a wheel of the present invention, showing my new design with the front face removed and half of the anti-skid devices in the open position and the other half in the closed position;

FIG. 2 is an exploded perspective view taken from the rear of FIG. 1;

FIG. 3 is a left side elevational view of FIG. 1; the right side being a mirror image thereof;

FIG. 4 is a perspective view, looking from the front, of an assembled wheel and front face of the present invention;

FIG. 5 is a front elevational view of FIG. 4;

FIG. 6 is a left side elevational view of FIG. 4; the right side being a mirror image thereof; and,

FIG. 7 is a rear elevational view of FIG. 4.

The broken line showing of one inflatable tire in FIGS. 1, 2, 4, 5 and 7, a second non-inflatable tire in FIGS. 3 and 6, and the broken line showing of spokes within the rim of the wheel in FIGS. 1, 2, 4, 5 and 7, are for illustrative purposes only and form no part of the claimed design.
