The ornamental design for a mitten holder for a tablet PC, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of my new design for a mitten holder for a tablet PC showing the mitten holder as it would appear when installed on a tablet PC and being used by an individual and wherein neither the tablet PC nor the individual form any part of the instant design;

FIG. 2 is a front elevational view of the design of FIG. 1 which as shown in FIG. 1 shows an individual’s hand inserted into the mitten portion of the mitten holder;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a left side elevational view thereof;

FIG. 5 is a right side elevational view thereof;

FIG. 6 is a bottom plan view thereof; and,

FIG. 7 is a top plan view thereof.

The broken line showing of a tablet PC, a person and a chair is included for the purpose of illustrating environment and forms no part of the claimed design.

The broken lines shown within the perimeter of the mitten are stitch lines and form part of the claimed design.
