(54) **Portable casing for blister packages containing drug tablets, confectionery products and the like**

(57) A portable casing, specifically designed for blister packages containing drug tablets, confectionery products and the like, is characterized in that said portable casing includes two half-shelves hinged to one another

and including closure means so as to define at least an open position and at least a closed position.

At least one of the half-shelves comprises recesses for receiving therein the product containing capsules, as the casing is arranged in its closed condition.
