The ornamental design for a respirator mask having a circular button, as shown and described.

FIG. 1 is a perspective view showing the new design for a respirator mask having a circular button; FIG. 2 is a front view thereof; FIG. 3 is a rear view thereof; FIG. 4 is a right side view thereof, the left side being a mirror image thereof; FIG. 5 is a top view thereof; and, FIG. 6 is a bottom view thereof.

The broken lines in the drawings illustrate portions of the respirator mask having a circular button which form no part of the claimed design.
