- (54) **Title:** METHOD OF AND APPARATUS FOR PROVIDING AN INDICATION OF DATA CONSUMPTION

**FIG. 1**

(57) **Abstract:** A method and apparatus for providing an indication of data consumption by an application said application being executable on an electronic device (100) and operable to consume data, via a network (200), from at least one remote content provider server (300), the method comprising: providing, on the electronic device (100), an iconic representation for the application, the iconic representation comprising an indication of previous data consumption by the application from said at least one remote content provider server (300) during previous execution of the said application; executing the application in response to selection of the iconic representation; receiving, from the network (200), data representative of new data consumption with the at least one remote content provider server (300) during the execution of the application; and providing an updated iconic representation for the application wherein the updated iconic representation includes an indication of updated data consumption based on the received data representative of the new data consumption and the previous data consumption.

A. CLASSIFICATION OF SUBJECT MATTER
INV. H04L29/08
ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
H04M H04L

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-Internal, COMPENDEX, INSPEC, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
