THE PROCESSING METHOD OF DYNAMIC EVENT AND THE APPLICATION SYSTEM THEREOF IN ONLINE GAME ENVIRONMENT

Abstract:
The present invention relates to a processing method of a dynamic event applied to an online game and an application system using the same in on-line game environment, and more particularly to a combo event that successively moves a block by a character and a block event that explodes a moved block and an adjacent block or giving a damage depending on superiority or inferiority of the characters by using correlation of characters. Such combo event or block event changes an attribute of an object composed of character and items, and also arouses interest and level change according to weight of each level in the processing method and the one-line game system using the same.

## INTERNATIONAL SEARCH REPORT

### A CLASSIFICATION OF SUBJECT MATTER

| IPC: | A63F 13/10; G06F 19/00 |

---

### B FIELDS SEARCHED

- **Minimum documentation searched (classification system followed by classification symbols)**
  
  **IPCGA 8 - A63F 13/10; G06F**

---

- **Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched**

---

- **Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)**
  
  **EPODOC, WPI, PAJ, NPL**

---

### C DOCUMENTS CONSIDERED TO BE RELEVANT

- **Special categories of cited documents**
  
  - "A" document defining the general state of the art which is not considered to be of particular relevance
  - "E" earlier application or patent but published on or after the international filing date
  - "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  - "O" document referring to an oral disclosure, use, exhibition or other means
  - "P" document published prior to the international filing date but later than the priority date claimed

---

- **T** later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

- **X** document of particular relevance, the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

- **Y** document of particular relevance, the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

- **&** document member of the same patent family
