(54) Title: BALLISTIC RESISTANCE SHELL

(57) Abstract: A shell apparatus (10). The shell apparatus (10) includes a shell dimensioned wherein the shell (10) form fits to at least partially cover the outside of a human body, and at least one pocket in the shell. The pocket securely accommodates a ballistic panel. Also, a body armor system. The body armor system includes a shell dimensioned wherein the shell form fits to at least partially cover the outside of a human body. The system also includes at least one pocket in the shell. The pocket securely accommodates a ballistic panel, which is received by at least one pocket.

15 November 2007

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codex and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
INTERNATIONAL SEARCH REPORT

International application No. PCT/US 06/20016

A. CLASSIFICATION OF SUBJECT MATTER
   IPC(8) - F41H 1/02 (2007.01)
   USPC - 2/25.5

According to International Patent Classification (IPC) or to both national classification and IPC.

B. FIELDS SEARCHED
   Minimum documentation searched (classification system followed by classification symbols)
   IPC(8) - F41H 1/02 (2007.01)
   USPC - 2/25.5

   Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
   USPC - 2/455
   (Text Search)

   Electronic database consulted during the international search (name of database and, where practical, search terms used)
   PubWEST (PGPB, USPT, USOC, EPAB, JPAB); DialogPRO (Engineering) and Google Scholar.
   Search Terms: bulletproof, shell, pocket, armor, resistance, resistant, bullet.

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Further documents are listed in the continuation of Box C.

- Special categories of cited documents:
  - "A" document defining the general state of the art which is not considered to be of particular relevance.
  - "E" earlier application or patent but published on or after the international filing date.
  - "L" document which may throw doubts on priority claims or which is cited to establish the publication date of another citation or other special reason (as specified).
  - "O" document referring to an oral disclosure, use, exhibition or other means.
  - "P" document published prior to the international filing date but later than the priority date claimed.

- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention.

- "X" document of particular relevance: the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone.

- "Y" document of particular relevance: the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

- "S" document member of the same patent family.

Date of the actual completion of the international search: 6 June 2007 (16.06.2007)

Date of mailing of the international search report: 19 SEP 2007
