- (54) Title:** MOBILE REMITTANCE COMPUTER SYSTEM AND METHOD

FIG. 1A

- (S7) Abstract:** A computer system that executes a mobile device financial institution and/or financial regulatory compliant, for example, SWIFT and AML/CFT compliant, remittance across borders of countries by generation, at a mobile device via a mobile device service operator interface of a mobile network operator in a first country, of a remittance transaction based upon a remittance amount and a mobile device number of a remittance sending user. The remittance transaction is transmitted, via the mobile device service operator interface, to a mobile device remittance service computer. The mobile device remittance service computer transmits via a money manager interface the remittance transaction to a money manager in a second country for remittance to a remittance beneficiary.
