(54) Title: GAMING DEVICE WITH TRANSPORT DEVICE AND METHOD OF USE

(57) Abstract: In certain embodiments, the present invention relates to a gaming device including a game apparatus adapted to allow a player to play a game. The gaming device may include a prize holder adapted to releasably hold a prize object in a controllable manner. The gaming device may also include a controller in communication with the game apparatus and adapted to cause the prize object holder to release the prize object. A display mechanism may be in communication with the controller and may be adapted to display the prize object to the player. The display mechanism may comprise at least one prize object receiver.
