DESIGN.

N. L. BRADLEY.
Lamp-Foot.

No. 6,899. Patented September 30, 1873.

NATHANIEL L. BRADLEY, OF WEST MERIDEN, CONNECTICUT, ASSIGNOR TO BRADLEY & HUBBARD, OF SAME PLACE.

Design for Lamp-Foot.

Specification forming part of Design No. 6,899, dated September 30, 1873; application filed September 16, 1873.

[Term of Patent 7 years.]

To all whom it may concern:

Be it known that I, NATHANIEL L. BRADLEY, of West Meriden, in the county of New Haven and State of Connecticut, have invented a new Design for Lamp-Pedestal; and I do hereby declare the following, when taken in connection with the accompanying drawing, to be a full, clear, and exact description of the same, and which said drawing constitutes part of this specification, and represents a front view.

This invention relates to a design for the pedestal or support of a lamp-bowl—that is to say, the portion between the bowl and the base—and it consists in the figure of a bird resting upon a base and supporting the lamp upon its back.

A is the base, B the bowl, of any desirable form, but constituting no part of this design. Upon the base rests the figure of a bird, from the back of which the lamp is supported, substantially as shown in the accompanying illustration.

I claim as my invention—

The design for lamp-pedestal, as shown and described, consisting of a bird resting upon the base and supporting the bowl of the lamp upon its back.

N. L. BRADLEY.
