(57) **CLAIM**

The ornamental design for a display screen with checkbox image for a touch-based user interface, as shown and described.

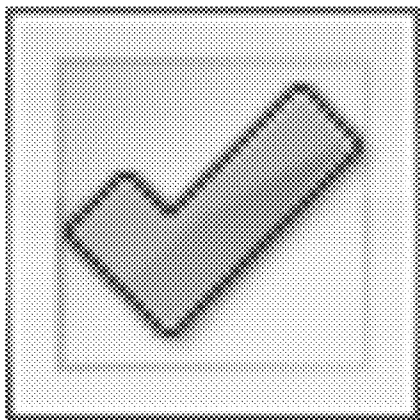

DESCRIPTION

FIG. 1 is a front view of a display screen with checkbox image for a touch-based user interface showing the ornamental design thereof in accordance with the present invention.

FIG. 2 is an enlarged partial front view of the first embodiment of FIG. 1, shown separately for ease of illustration; and, FIG. 3 is an enlarged partial front view of the second embodiment, shown separately for ease of illustration.

The broken line showing of the display screen and various regions in the drawings is included for the purpose of illustrating environmental structure and unclaimed portions and forms no part of the claimed design.
