Des. 643

John Burgess of Troy, N.Y.

Assignor to

Beer & Co. of same place.

Letters Patent No. 643. Dated April 25th, 1854.

The schedule referred to in these Letters Patent, & making part of the same.

To all whom it may concern.

Be it known that I, John Burgess, of Troy in the County of Rensselaer, and State of New York, have invented or produced a new and useful design of stove plates, and I do hereby declare that the following is a full, clear, & exact description of the same, reference being had to the annexed drawings, making a part of this specification, in which-

Fig. 1 is an end plate;

Fig. 2, a section of the same;

Figures 3, 4, and 5 are doors.

The design of my stove plates consists of the end plate, Fig. 2, in the columns (a a), the gothic arch (b b), the triangular mouldings (c c), the pendants (d d), the ovolos (e e), the center gothic frame or moulding (f f), and center work (g) arranged as represented in the drawing. The design of doors, figures, 3 and 4, consists of the center (h), the points (i i), the coes &c. (j j) with the moulding (k k), arranged as shown in the drawings. The design of Fig. 5, consists of the ornamental mouldings (l l), the arches (m m), the coes (n n), the points (o o), arranged as represented in drawing.

Having thus described my design of stove plates, what I claim as new, and desire to secure by Letters Patent, is-

The ornamental design and configuration of stove plates, such as herein described, and represented in the annexed drawings.

Witnesses:

Chas. H. Beer,

J. J. Savage.

John Burgess.
