Rip-Abs shirt design is a workout shirt. The shirt is used to show the development of your arms, chest and abs. The shirt is sleeveless, cut and stitched in the middle for an opening design. The shirt has 3 six inch straps with Velcro attachment at the end of each strap, stitched on the right side 4 inches apart and 3 one inch Velcro attachments stitched on the left side equally 4 inches apart. The t-shirt is versatile and can be worn during various sporting activities.
RIPP-ABS SHIRT

[0001] FIG. 1 is a front view of the RIPP-ABS Shirt that allows the individual to see their work while in progress during a workout session.

[0002] FIG. 2 Shows a frontal view of the RIPP-ABS Shirt displaying a view of the three Velcro attachments which enables the shirts adjustability. The Velcro is located on the end of straps located on the right side of the shirts and Velcro placement following along the left side of the shirt for pairing.

[0003] FIG. 3 is a back view of the RIPP-ABS Shirt displaying that there is no opening in the rear of the shirts as there is for the front of the shirt which gives closure for comfort and style.

1. As you exercise, you can see the development of your abs, chest and arms.

2. The shirt is offered in a variety of brilliant colors.
3. It’s sleeveless and comfortable.
4. It’s easy to change from your gym clothes to your regular clothes.
5. Because of the design (with the opening in the front), air can freely flow through your body to keep you “cool.”
6. It grabs “attention” from the opposite sex.
7. It’s adjustable because of the Velcro in the design.
8. The shirt is very versatile: It can be worn as a different style of casual shirt. It can also be worn in the following sporting activities: Football, Basketball, Tennis, Jogging.

Because of its unique design, it is a one-of-a-kind shirt.
