Attorneys
To all whom it may concern:

Be it known that we, Harry E. James, a citizen of the United States, residing at Atlantic City, New Jersey, and William J. McClintock, Jr., a citizen of the United States, residing at Harrisburg, county of Dauphin, State of Pennsylvania, have invented a new, original, and ornamental Design for a Candy Box, of which the following is a specification, reference being had to the accompanying drawing, forming a part thereof.

The figure is a perspective view of a candy box, showing our new design.

The dominating feature of the present invention consists of a candy box having a multiplicity of relatively shallow pockets defined by intersecting partition walls whose top surfaces are flat and relatively broad. The top surfaces of one series of partition walls are in a different horizontal plane from the top surfaces of the other series of partition walls, and the top surfaces of the partition walls merge continuously with two adjacent side walls of the box and at spaced points with the walls at the other two sides of the box.

We claim:

The ornamental design for a candy box, substantially as shown and described.

HARRY E. JAMES.

WILLIAM J. McCLINTOCK, Jr.
