(54) Title: POLYOLEFIN ADHESIVE AND PRODUCTION PROCESS THEREFOR

(57) Abstract: A method for producing polyolefin-based adhesive resins having improved physical and optical properties and the improved adhesive. resins thereby produced, eliminates at least one reheating and melting of polyolefin polymer, comprises polymerizing a monomer composition of at least one olefin, mixing the polymerization product without pelletizing the polyolefin polymer with at least one graft polymer or copolymer in a heated mixing device at a temperature above the melting point of the components, and recovering the resulting polyolefin-based adhesive resin.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US03/24755

A. CLASSIFICATION OF SUBJECT MATTER IPC(7) : C08L 23/00, 51/00								
US CL : 525/193, 206, 240								
According to International Patent Classification (IPC) or to both national classification and IPC B. FIELDS SEARCHED								
Minimum documentation searched (classification system followed by classification symbols)								
U.S. : 525/193, 206, 240								
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched								
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)								
C. DOCUMENTS CONSIDERED TO BE RELEVANT								
Category * Citation of document, with indication, where	appropriate, of the relevant passages Relevant to claim No.							
Y US 5,137,975 A (KELUSKY et al.) 11 August 199								
column 6, lines 40-45 and column 7, lines 58-66.	5, 25							
	5, 22							
	,							
	į							
Further documents are listed in the continuation of Box C.	See patent family annex.							
Special categories of cited documents:	"T" later document published after the international filing date or priority							
"A" document defining the general state of the art which is not considered to be of particular relevance	date and not in conflict with the application but cited to understand the principle or theory underlying the invention							
"E" earlier application or patent published on or after the international filing date	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step							
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as	when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be							
specified)	considered to involve an inventive step when the document is combined with one or more other such documents, such combination							
"O" document referring to an oral disclosure, use, exhibition or other means	being obvious to a person skilled in the art							
"P" document published prior to the international filing date but later than the priority date claimed	"&" document member of the same patent family							
Date of the actual completion of the international search	Date of mailing of the international search report							
17 February 2004 (17.02.2004)	18 MAR 2004							
Name and mailing address of the ISA/US Mail Stop PCT, Attn: ISA/US	Authorized officer							
Commissioner for Patents	Jeffrey C. Mullis
