A. Myers,

Reciprocating Saw Mill,

Patented Nov. 9, 1832.

A.M. PHOTO-LITHO. CO. N.Y. (OSBORNE'S PROCESS)

X7285 Nov 9, 1832 Nov. 9, 1832 641

Abraham Myers of Washington County, Maryland
Letters Patent.

The Schedule referred to in these Letters Patent and making part of the same containing a description in the words of the said Abraham Myers himself of his improvement in the machine for shearing Gun Stocks.

Be it known that I Abraham Myers of Washington County State of Maryland have made an improvement in the machine for shearing Gun Stocks, which is described as follows.

The improvement consists of the platform and standards to secure the Gun stocks, the knives, and the bellows to blow away the dust.

The platform is about two feet in front and seven feet behind; there are three sectional partitions, each about two feet. The platform is supported by four upright standards or posts, resting on the floor of the saw mill. There are two saws which work lengthwise of the machine, and one which works perpendicular for shearing off the ends of the Gun Stocks. These saws are attached to and worked by a common saw mill frame or gate. The bellows having the pipes to, but above the platform on which the Gun stocks are placed not touching it, but leaving room for the stuff to pass under.

The bellows is a square or parallelogram form, having two pipes, one for each saw working lengthwise for blowing away the dust made by the cut of the saw mill. Operation. The stock being first marked off, is laid on the platform under the saws, so as to rest on the [illegible] The improvement which I claim and desire to be secured by Letters Patent is the before described mode of shearing gun stocks, particularly the platform on which they are placed, the arrangement of the saws for shearing them and the bellows for blowing off the dust. For a more particular description of my invention I refer to the model and drawing of the same deposited in the Patent office.

In testimony whereof I have hereunto subscribed my name before two witnesses this 9th day of October 1832

Witnesses: Wm. M. Elliot
Richd. Wendling (Gun maker)
