CLAIM

The ornamental design for a rotatable strap for portable electronic device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view showing a first embodiment of my new design;

FIG. 2 is a front view of the first embodiment of my new design;

FIG. 3 is a rear view of the first embodiment of my new design;

FIG. 4 is a left side view of the first embodiment of my new design;

FIG. 5 is a right side view of the first embodiment of my new design;

FIG. 6 is a top view of the first embodiment of my new design;

FIG. 7 is a bottom view of the first embodiment of my new design;

FIG. 8 is a perspective reference view of my new design assembled on a portable electronic device;

FIG. 9 is a perspective reference view of using a portable electronic device with my new design by holding;

FIG. 10 is a perspective reference view of a portable electronic device with my new design when a hand strap rotates;

FIG. 11 is a perspective reference view of a portable electronic device with my new design by holding when the portable electronic device rotates to use;

FIG. 12 is a front perspective view showing a second embodiment of my new design;

FIG. 13 is a front view of the second embodiment of my new design;

FIG. 14 is a rear view of the second embodiment of my new design;

FIG. 15 is a left side view of the second embodiment of my new design;

FIG. 16 is a right side view of the second embodiment of my new design;

FIG. 17 is a top view of the second embodiment of my new design;

FIG. 18 is a bottom view of the second embodiment of my new design;

FIG. 19 is a perspective reference view of my new design assembled on a portable electronic device;

FIG. 20 is a perspective reference view of using a portable electronic device with my new design by holding;

FIG. 21 is a perspective reference view of a portable electronic device with my new design when a hand strap rotates; and,

FIG. 22 is a perspective reference view of a portable electronic device with my new design by holding when the portable electronic device rotates to use.

The broken lines shown in the drawings represent environment that form no part of the claimed design.
