LAWRENCE M. JONES AND JOHN L. JONES, OF KANSAS CITY, MISSOURI.

DESIGN FOR A FONT OF PRINTING-TYPE.

SPECIFICATION forming part of Design No. 27,192, dated June 8, 1897.

Application filed April 2, 1897. Serial No. 680,681. Term of patent 14 years.

To all whom it may concern:

Be it known that we, LAWRENCE M. JONES and JOHN L. JONES, of Kansas City, Jackson county, Missouri, have invented and produced a new and original Design for a Font of Type, of which the following is a full, clear, and exact description, reference being had to the accompanying drawing, forming a part thereof.

The drawing shows a face view of a font of printing-type comprising the upper-case and the lower-case.

The leading feature of our design consists in the font of type shown, comprising the jagged, electric, or lightning-like lines branching off in various directions from the characters or symbols. These jagged or lightning-like lines are exemplified in connection with the upper-case or capital and the lower-case or small letters. They are also exemplified in connection with the punctuation-marks, symbols of connection and dollars, and the numerals 1, 2, 3, 4, 5, 6, 7, 8, 9, and 0.

What we claim is—

The design for a font of printing-type, as herein shown and described.

In testimony whereof we affix our signatures in the presence of two witnesses.

LAWRENCE M. JONES.
JOHN L. JONES.

Witnesses:
ROBERT S. CROWLEY,
CHARLES A. BAKER.
