Jan. 11, 1938.  R. G. FERRIS  MILK STOOL  Filed June 12, 1937

Inventor:
Robert G. Ferris,

By Banning Haining  Attorneys.
To all whom it may concern:

Be it known that I, Robert G. Ferris, a citizen of the United States, residing at Harvard, in the county of McHenry and State of Illinois, have invented a new, original, and ornamental Design for a Milk Stool, of which the following is a specification, reference being had to the accompanying drawing, forming a part thereof, in which:

Figure 1 is a side elevational view of the milk stool, showing my new design;

Figure 2 is a bottom plan view thereof; and

Figure 3 is a perspective view of the same.

The characteristic feature of the instant invention consists in the inwardly and outwardly inclined legs which are outwardly channeled and which adjoin the annular rim of the seat at their upper ends from which they incline inwardly to a triangular connecting brace beneath the seat and from which brace the outwardly channeled legs incline outwardly in opposite directions, as shown.

I claim:
The ornamental design for a milk stool, as shown and described.

ROBERT G. FERRIS.
