CLAIM

The ornamental design for an integrated circuit card with magnetic reading strip and keyboard and display, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of an integrated circuit card with magnetic reading strip and keyboard and display showing my new design;
FIG. 2 is a right side elevational view thereof, the left side being identical in appearance to the right;
FIG. 3 is a top plan view thereof, the bottom plan being identical in appearance to the top;
FIG. 4 is a rear elevational view thereof; and
FIG. 5 is a front elevational view thereof, the characters being shown on the display window in broken lines for illustrative purposes only.
