[57] CLAIM

The ornamental design for a bird feeder, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a bird feeder showing my new design, the rear being a mirror image of the front shown;

FIG. 2 is a top plan view thereof.

FIG. 3 is a bottom plan view thereof.

FIG. 4 is a right end elevational view thereof, the left end being the same as the right end shown except for the omission of the hinges; and

FIG. 5 is a cross-sectional view taken on line 5—5 of FIG. 4.

It is to be understood that the wire mesh is continuous through out the area indicated in FIGS. 3 and 5. The support cord is broken away in FIG. 4 for convenience of illustration.
