(57) **CLAIM**

The ornamental design for a dual display device with animated image, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a dual display device with a first image in the sequence for an animated image showing our new design;

FIG. 2 is the second image thereof;

FIG. 3 is the third image thereof;

FIG. 4 is the fourth image thereof;

FIG. 5 is the fifth image thereof;

FIG. 6 is the sixth image thereof;

FIG. 7 is the seventh image thereof;

FIG. 8 is the eighth image thereof;

FIG. 9 is the ninth image thereof;

FIG. 10 is the tenth image thereof;

FIG. 11 is the eleventh image thereof;

FIG. 12 is the twelfth image thereof;

FIG. 13 is the thirteenth image thereof;

FIG. 14 is the fourteenth image thereof; and,

FIG. 15 is the fifteenth image thereof.

The appearance of the animated image sequentially transitions between the images shown in FIGS. 1-15. The process or period in which one image transitions to another forms no part of the claimed design. The even length broken line showings of text and various regions and the unshaded areas there within form no part of the claimed design. The two solid line outermost rectangles of the claimed design form the outer edges of the animated image which are congruent with the inner edges of the dual frames of the display device. The uneven length broken line showing of the remainder of the device illustrates unclaimed environment and form no part of the claimed design.
