Continuation of:

Claims 1-28 relate to subject matter that this authority is not required to search in view of **Rule 39.1(iv) of the PCT**. Claims 1-28 consist of methods for treatment of a human or animal body. Furthermore, there are no "use" claims that can be interpreted from claims 1-28. As no search has been performed on the subject matter of these claims, no comment is made regarding their novelty or inventive step. As no unified standard exists among the PCT contracting states as to whether methods of medical treatment have industrial applicability, no opinion is rendered in respect of the industrial applicability of claims 1-28.
